## Why DLP 3D in the classroom?

- Engage students at a whole new level.
- Potentially improve retention and test scores.
- Compete with modern technology everywhere.

## What can 3D do?

- Use 3D lessons for frog dissections.
- Walk through famous architectural structures.
- Show the nuances of the amazing human anatomy in 3D detail.
- Explore virtual topography to bring geography lessons to life.
- Fly through the universe in 3D and inspire new space explorers in your class.
